

YAMARIN

SEASON 2024

EMPOWERED BY  YAMAHA

OVER 50 YEARS OF YAMARIN

Yamarin was born from the desire to create the optimal boat for the best outboard motor by Yamaha. The end result was so successful that, in its over 50-year existence, Yamarin has grown into an esteemed Nordic boat brand, which offers safety and comfort for tens of thousands of boaters throughout the Nordic countries and Northern Europe.

Yamarin models 365, 395 and 395R (1984–1985)

Yamarin 405 (1985)

1972

YAMARIN IS CREATED

In 1972, the first original Yamarin models were created: the **380** and **420**, which were 13ft long open boat models equipped with consoles and a 25-horsepower Yamaha motor.

1977

Only five years after creating its own boat brand, Yamaha rose from a relative unknown to be the clear-cut leader in the Finnish outboard motor market, and it was there to stay!

Yamarin 425R (1983)

1975

The first Yamarin Hard Top model was unveiled in 1975: **555 HT**, which paved the way for Yamarin's future HT successes. As the only Nordic walk-through model, it is miles ahead of its competition.

Yamarin 550 HT was introduced in Vene boat magazine test in 1976.

1980—

SUCCESS UPON SUCCESS

The numerous new Yamarin models launched at the end of the 1980s, such as the **575 BigGame** and **600 BigRide**, sparked an interest among boat enthusiasts in this Finnish quality boat.

Various user groups, such as leisure boaters, people with cottages, fishermen and tender boaters, found their favourite from the line-up. Word of mouth brought positive publicity to the brand.

The image of Yamarin's excellent operability and competitive quality for the price was also formed around the time.

Yamarin 575 (1989)

Yamarin 560 BigCatch (1993)

1990—

INTO THE GLOBAL MARKET

The recession had not yet reared its head when Kesko Marine had its first real boost in export in 1990, which is when Yamarin's export to Sweden, Norway and the Netherlands was first started.

Yamarin 4700 BigRide (1993)

2000—

NEW YAMARIN CLASSICS

At the turn of the millenium, Yamarin also changed its side colour to dark blue from the previous turquoise. The shape of the logo was also changed along with its red colour, which was now replaced by gold.

The first new model of the millenium was the **Yamarin 6100 BigRide**.

Yamarin 6100 BigRide (2000)

2010

Yamarin's unveiling of their new aluminium hull **Cross line-up**.

Yamarin Cross 61CC

2016

FROM KESKO TO INHA WORKS

In December 2016, Kesko announced its intention to sell its Yamarin business to Inha Works, and the transaction was finalised at the end of June 2017.

2018

In 2018, Yamarin's largest model of all time was unveiled in the shape of its new impressive flagship, the **Yamarin 88 DC**, a model representing the new design language.

Yamarin 88DC (2018)

2023

A BOAT WITH A RICH HISTORY AND AN EXCITING FUTURE

For over 50 years, Yamarin's line-up has combined traditional Finnish boat building competence with state-of-the-art design and manufacture technologies.

The heart of Yamarin is in its superior operability. Yamarin provides its operator with perfect control, a pleasant trip for passengers and safety on the water for everyone on board.

Yamarin. Ready to cruise.

BOATING AT ITS BEST

Yamarin boat range provides all the requirements for the perfect summer spent boating, no matter if the preference is picnics to the nearby islands, lunchbreaks in vibrant marinas or fast-paced days filled with watersports and friends.

Yamarin boats are known for their high quality, and their excellent driving characteristics and user-friendliness guarantee carefree and joyful moments on the waters. Modern, streamlined design and carefully crafted details bring a hint of luxury to every boat in the line-up, all the way from the smallest console boat to the glorious flagship model.

For the boating season 2024 Yamarin line-up introduces an elegant novelty, the 80 Day Cruiser, with exceptionally well-functioning layout and indoor spaces. The elegant flagship model 88 Day Cruiser is a showstopper too, now even more so with an updated look in the open area and bow cabin.

Yamarin boat range offers a perfect model in every size category, for every use and purpose. **Get acquainted with the options at [yamarin.com](https://www.yamarin.com)**

INSPIRATION FUELED BY VARIOUS NEEDS

There is a favourite model for everyone in the extensive Yamarin boat range, regardless if you're looking for an easily handled camping boat for a nearby archipelago, a multifunctional commuting boat to your summer house, or simply a way to enjoy the sheer thrill of speed with your friends and loved ones. Each and every Yamarin is a carefully crafted whole, with no missing details. The boats have supreme handling characteristics and travel comfort, have extensive set of accessories and represent the timeless, stylish Nordic design. Yamarin is an elegant and reliable choice that is guaranteed to charm you.

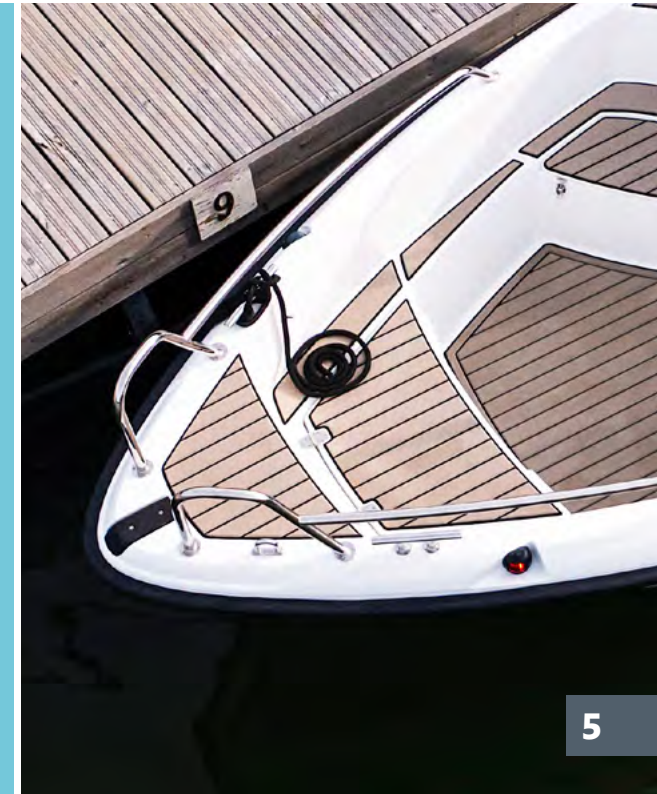

SAFETY

Your safety, along with the safety of your family and friends, is highly important to us. This is why all Yamarin boats have gone through hundreds of hours of thorough safety tests – starting all the way from their inception. Wider hulls make the boats steady and easy to handle, teak surfaces and well placed footings let you move around freely and without slipping. Boats equipped with Yamarin Q take the safety even further, with e.g. integrated navigation, engine data and real-time weather reports. The safety tests and carefully designed details result in comprehensively secure boats that are built to be enjoyed by everyone. We do this so you can relax and live out your dream summer.

QUALITY AND DESIGN

Yamarin boats are created to withstand the ever-changing Nordic weather conditions. Its design language and interiors have a timeless, Nordic style, without forgetting family-friendly solutions. In our boats, the use of space is always practical and efficient. The driving comfort is optimized, as are other technical features like the fuel consumption and stability. Yamarin boats are known for their high level of standard equipment and we still make our boats by hand with more than 40 years of experience.

HANDLING

The qualities of thoroughly tested and fully optimized Yamarin boats – as well as their hull geometry – guarantee first-class handling in all conditions. You can trust the boat to take you through even the rougher weather conditions without hesitation, while providing you with unforgettable boating moments.

EmPOWERED BY YAMAHA

For decades, Yamarin has been a highly valued boat brand with products that combine reliability, comfort and timeless style. The brand's quality is also strongly associated to Yamaha, which helped in making Yamarin one of the most popular boat brands in Scandinavia.

EmPowered by Yamaha is more than a message about Yamarin's performance. It is a promise that empowers. The promise speaks of how both the boat and its driver achieve entirely new experiences, together. Experiences, which are only possible with Yamaha.

YAMARIN Q TECHNICAL INFORMATION:

- 10" or 16" smartscreen
- Online updates via Internet
- One year data connection (WiFi, Bluetooth, 4G)
- Navionics nautical charts, one map region included in the price
- AIS, Echo, Fishfinder, radar, Guard & remote control compatibility
- Music (BT, FM, DAB) via built-in audio amp
- Boat & engine manuals, instruction material
- NMEA compatible

YAMARIN Q – BOATING MADE EASY

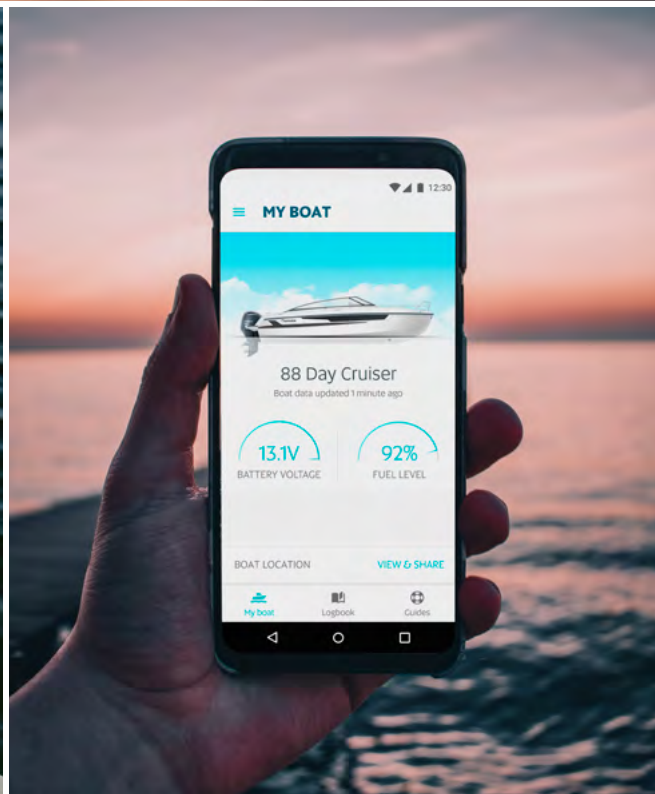

Time spent boating should be carefree and as easy as possible, without having to put extra effort in anything else than relaxing and enjoying. That is what the Yamarin Q infotainment system is for, providing a new level of smoothness, ease and safety to boating, both ashore and on the water. Whether you are an expert boater or inexperienced, Yamarin Q provides you a whole new approach to boating, with its' user friendly features. With the Yamarin Q all the needed functionalities are integrated and found in one place, with just a touch of a finger.

Yamarin Q has a smart 10" or 16" touchscreen where you will find all the important engine related figures and facts, like fuel level and battery status. The navigation with Navionics nautical charts is intuitive on the touchscreen, as you can adjust the screen settings to your own liking and even according to the situation. Everything from localized and up-to-date weather reports to boat guides, instructional videos and music streaming possibilities are accessible with the infotainment system and an onboard computer. The always online -functionality makes sure the system stays updated and provides the latest information at all times. The Wi-Fi hotspot enables sharing the Internet connection with other devices.

The infotainment system is completed with the Yamarin app, the free mobile application you can connect with your Yamarin Q to get all the vital information of your boat directly to your phone. The app shows you the location of the boat, the engine status and records your logbook data, by retrieving it all directly from the Yamarin Q. For example, you can quickly re-visit the route of the day and even share it in your social media channels along the pictures you might have taken, directly through the app. All the preloaded video tutorials, user manuals and instruction guides are also available in the app, which allows you to maximize your boating knowledge and safety know-how even from the comfort of your own home.

If desired, the Yamarin Q standard equipment can be supplemented e.g. with an echo sounder, a high-quality sound system and a fish radar. The Yamarin Q Fishfinder uses CHIRP technology, which enables exceptionally good image quality and probes the seabed and fish to a depth of 270 meters. Yamarin Q also complies fully with the NMEA 2000 boating standard, so it can be connected to devices of other manufacturers of boating electronics as well.

Make the most of a full day on the water with family and friends, while navigating with the electronic map on the touchscreen and listening to your favorite music.

88 DAY CRUISER

The timelessly elegant 88 DC, with enhanced luxury and power. Carefully thought-out details like the wooden interior in the cabin and stainless steel windscreen frame provide a luxurious look and feel to the flagship model, and with the Yamarin Q+ the ease and convenience of the boating experience are maximized.

28' 11"	9' 8"	10
2138 LBS	2' 3"	19°
5180 LBS	300-425 hp	X
80 GAL	C	47 KTS / 54 MPH

FEATURES

The Yamarin 88 DC comes with comprehensive standard equipment, including the Yamarin Q+ (two 16" touch screens), the Entertainment package with Marine Bluetooth Stereo, a cockpit table, hydraulic steering, openable hull windows, electric flush toilet with a septic tank, a stove and a fresh water system and tank.

The luxury of the 88 DC can be seen especially inside the cabin, where the wardrobe, the toilet door and doorframe, the shelf behind the bed, the back of the mirrors, and the storage boxes are all stylish, light coloured wood.

An interesting new accessory is the Bimini, which provides perfect shade in the summer heat. Bimini can be installed in place of the aft canvas (folds into storage).

Navigation and monitoring the gauges is easy with the big, 16" Yamarin Q double screens.

88 DAY CRUISER

Seating for 10 in comfortable cockpit.

Windscreen frame in stainless steel gives a finishing touch to the boat's sleek overall appearance.

The light wooden detailing in the clothes locker, toilet door and shelves add to the luxurious feel of the cabin.

 **YAMARIN**

80

NEW

DAY CRUISER

Embrace the elegance, enjoy the comfort.

The latest addition to the Yamarin fleet, the 80 Day Cruiser, innovatively combines the best features of a day cruiser and a walkaround, providing maximized indoor spaces, a large and functional open area and ease of access from bow to stern. Together with the excellent design solutions and the undisputed Yamarin driving characteristics, the 80 DC is a daytrip boat beyond compare.

27' 2"	8' 7"	10
2623 LBS	2' 3"	18°
4850 LBS	225-300 hp	X
80 GAL	C	43 KTS / 50 MPH

FEATURES

The bow deck of the 80 DC is innovatively designed, as it provides access to the boat from the side. Access from the sheltered open seating area to the bow is located on the port side, whereas in most modern-day cruisers access is typically in the middle of the boat. In other respects, the bow deck is completely flat, so it is easy to move about in the bow when docking. It also makes an excellent place for a sunbed.

Yamarin 80 DC features a spacious bow cabin for sleeping, which is very well lit thanks to the large hull windows. There is also a decent sized hatch to the bow deck. On the port side, under the recessed passageway, there is a comfortable divan with a wonderful view out of the adjacent hull window. In addition, there is a separate, spacious electric flush toilet in the bow. From the bow cabin there is access to another spacious sleeping cabin located under the open space, where two adults can sleep comfortably.

The real heart of the boat, however, is its spacious open space where up to eight people can socialize in comfort. The pantry on the port side is equipped with a stove, a refrigerator and sink, as well as good storage facilities. Yamarin 80 DC features a clearly laid-out cockpit, which has been designed with designated places for screens, Yamaha gauges and the joystick that controls the engine, as well as a charging port for phones.

80 DAY CRUISER

67 DAY CRUISER

Yamarin 67 DC offers a direct pathway to the perfect summer days on the water. The comfortable open area is spacious enough for several passengers, and it can also be equipped with a galley module and a fridge. All steps through the boat are clear and well-placed. The stylish bow cabin is comfortable and allows natural light to flow in from the large hull windows and big skylight. 67 DC is a sturdy and elegant boat, providing all the essential features from a bigger daycruiser.

 22' 2"	 8' 4"	 8
 1224 LBS	 1' 4"	 21°
 3263 LBS	 150-250 hp	 X
 52 GAL	 CE C	 46 KTS/ 53 MPH

FEATURES

Yamarin 67 Day Cruiser is a sleek and stylish boat, offering a great way to create those unforgettable summer memories. Designed for eight persons, the 67 DC is a functional boat equipped with many features from the bigger day cruiser models, adding it straight to the top of the popular size category. Yamarin 67 DC works wonders as a day trip boat for a family or a group of friends.

The cabin on the Yamarin 67 DC features a sliding door, and the large hull windows and roof hatch

fill the cabin with natural light. The cabin is ideal for sleeping overnight, as a nap space for kids and for storing luggage. There is a large storage space beneath the bed, and an electric flush toilet is available as an option to make the cabin even more practical.

Boarding the boat and moving about onboard is safe and easy thanks to the even bow deck, ergonomic fixed steps and large swimming platforms. The water-skiing arch (available as an

extra accessory) serves as an extra support when moving on the aft deck and on the swimming platforms. Generously sized lockers for storing lines are located at both the bow and stern.

The driver's area has been designed to be both stylish and ergonomic. Special attention has been paid to the layout of the screen and instrument panel, and the 10-inch Yamarin Q smart display (or optional 16-inch display) is located conveniently right in front of the helmsman.

67 DAY CRUISER

yamarin.com

All Yamarin models are CE approved and the boats belong to category C. Factory-equipped Yamarin boats have a Yamarin Q infotainment system or Yamaha LAN multi-function gauges, a remote control and remote control cables. The motor installation bolts are installed at the factory. The boats in the brochure have been specially accessorised. There can also be some differences in the models of various countries, so be sure to check with your Yamarin sales representative to find out about the basic accessories for your chosen boat.
